

Property Management

RootX® is the Root Intrusion Solution

- Conveniently packaged in 2 lb. and 4 lb. jars to treat any size residential pipeline.
- Utilizes the RootX® funnel applicator for mixing and application. No need for expensive equipment required.
- Guaranteed against blockages due to roots for 12 months.
- Requires once a year application.

The RootX® Advantage

Simple

- Foams on contact with water.
- Prepackaged for easy application.
- Ready to use.
- Treatments take less than 5 minutes.
- No expensive equipment needed.

Effective

- Kills roots on contact.
- Foaming action coats pipe walls and reaches the top of the pipe.
- Prevents regrowth.
- Surfactants strip away grime to help RootX® kill the roots.
- Helps speed up the decay of roots naturally.

Proven

- RootX® is registered with the EPA for use in sanitary and storm lines.
- Non Systemic, so it will not harm the tree or plant.
- Does not contain copper sulfate or metam sodium.
- Prevents further pipe damage caused by root intrusion.
- Non caustic
